**Subject:** Meeting with Osaka Gas USA at NARUC Summer Policy Summit in Scottsdale, AZ

Hi Jack,

We look forward to seeing you again at the NARUC Summer Policy Summit in Scottsdale, AZ, in a few weeks. Last year in San Diego, you graciously shared your time to meet with our client Osaka Gas USA to discuss distributed generation, renewables, and microgrids, among other topics.

Osaka Gas is again attending the upcoming Summer NARUC meeting and has requested an opportunity to meet with you again. Because your state has legislation that supports community solar, they would like to meet with you to learn more about your policies and of the opportunities in this area.

The meeting time would not be greater than 30 minutes. They are available on either Monday or Tuesday, July 16 and 17, and can meet at breakfast on either day if that is desired.

We realize that you will have many competing demands from your NARUC responsibilities, and are deeply appreciative of any time you can spare during the Policy Summit.

We are forwarding you an introductory slide deck once again for your information.

Thanks in advance, and we look forward to seeing you next month.

Warm regards,  
Bob
